Notice of Allowability	Examiner	Art Unit	
	B. Clayton McCraw	3744	
The MAILING DATE of this communication appears on the cover sheet with the correspondence address All claims being allowable, PROSECUTION ON THE MERITS IS (OR REMAINS) CLOSED in this application. If not included herewith (or previously mailed), a Notice of Allowance (PTOL-85) or other appropriate communication will be mailed in due course. THIS NOTICE OF ALLOWABILITY IS NOT A GRANT OF PATENT RIGHTS. This application is subject to withdrawal from issue at the initiative of the Office or upon petition by the applicant. See 37 CFR 1.313 and MPEP 1308.			
1. X This communication is responsive to 3/9/2006.			
2. The allowed claim(s) is/are <u>1,5 and 7-20</u> .			
3.

Application/Control Number: 10/772,406

Art Unit: 3744

REASONS FOR ALLOWANCE

- 1. Claims 1, 5, and 7-20 are allowed.
- The following is an examiner's statement of reasons for allowance: As per claim 2. 1, the prior art fails to teach a method for venting an interior space of a capsule of a vehicle cryo fuel tank system, generating a pressure differential between the capsule interior space and exterior space, applying the pressure differential to a gas in the capsule interior space with a rinsing medium to cause a gas in the capsule interior to be exhausted from the capsule, treating the gas from the interior to reduce its environmental impact, and specifically, the exhaust of gas from the capsule interior space being controlled to extend over a period of time. As per claim 10, the prior art fails to teach a cryo tank capsule, wherein the capsule envelopes at least one of a line, valve, and storage container, further comprising a pressure differential generator differentiating pressure between the interior and exterior space, exhaust gas being driven by the pressure differential, a gas treatment device, and specifically, the exhaust gas from the interior space being controlled to extend over a predetermined time. As per claim 20, the prior art fails to teach a cryo tank capsule, wherein the capsule envelopes at least one of a line, valve, and storage container, further comprising a means for differentiating pressure between the interior and exterior space, exhaust gas being driven by the pressure differential, a means for treating gas in the interior capsule, and specifically, the exhaust gas from the interior space being controlled to extend over a predetermined time.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

- 4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to B. Clayton McCraw whose telephone number is (571) 272-3665. The examiner can normally be reached on M-F 8:30AM-5:00PM.
- 5. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Cheryl Tyler can be reached on (571) 272-4834. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
- 6. Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic

Business Center (EBC) at 866-217-9197 (toll-free).
